

Texas Department of Public Safety Texas Division of Emergency Management State Situation Report

Event Name	May Severe Weather
Date	June 04, 2016
Time	0700 – 0700
Operational Period	06/03/2016 – 06/04/2016
Report Number	9

Regions Affected	
DPS Regions Affected	1, 2, 3, 5 and 6
DDCs Active	4A – Hurst, 13 – Bryan, 16B – Texas City, 16C – Conroe, 16D – Pierce

STATEWIDE CURRENT SITUATION: The Governor of Texas declared a state of disaster in Austin, Bandera, Bastrop, Brazoria, Brazos, Burleson, Coleman, Colorado, Erath, Fayette, Fort Bend, Grimes, Hidalgo, Hood, Jasper, Kleberg, Lee, Leon, Liberty, Lubbock, Montgomery, Palo Pinto, Parker, Polk, Robertson, San Jacinto, Tyler, Walker, Waller, Washington and Wharton Counties.

The upper low is continuing to bring heavy rainfall to portions of Texas, and is now situated over North Central Texas. Scattered showers have developed across this general area the past several hours; however this activity is very light at the moment. Another area of showers and thunderstorms is impacting portions of the upper Texas coast. Heavy rainfall will continue over this area for the next several hours and may cause some additional flood impacts across the lower Sabine and Neches. Rainfall rates are currently averaging 1.00 to 1.25 inch per hour.

For the next 24 hours, additional showers and thunderstorms are expected with locally heavy rainfall possible, across Central Texas and the upper Texas coast.

The upper level system is forecast to shift slowly southward to South Central Texas and eventually Deep South Texas. In addition, a cold front is forecast to move into the state from the northwest. This may focus the heavier rainfall over Southeast Texas and near the middle Texas Gulf coast as the front progresses slowly southeast.

By Sunday the cold front is forecast to continue moving southeastward. Drier air from the northwest will overtake the state. The rainfall will gradually end from northwest to southeast over Texas Sunday and Monday morning.

Please visit www.DriveTexas.org or call 1-800-452-9292 for the most updated road conditions.

OPERATIONAL PRIORITIES:

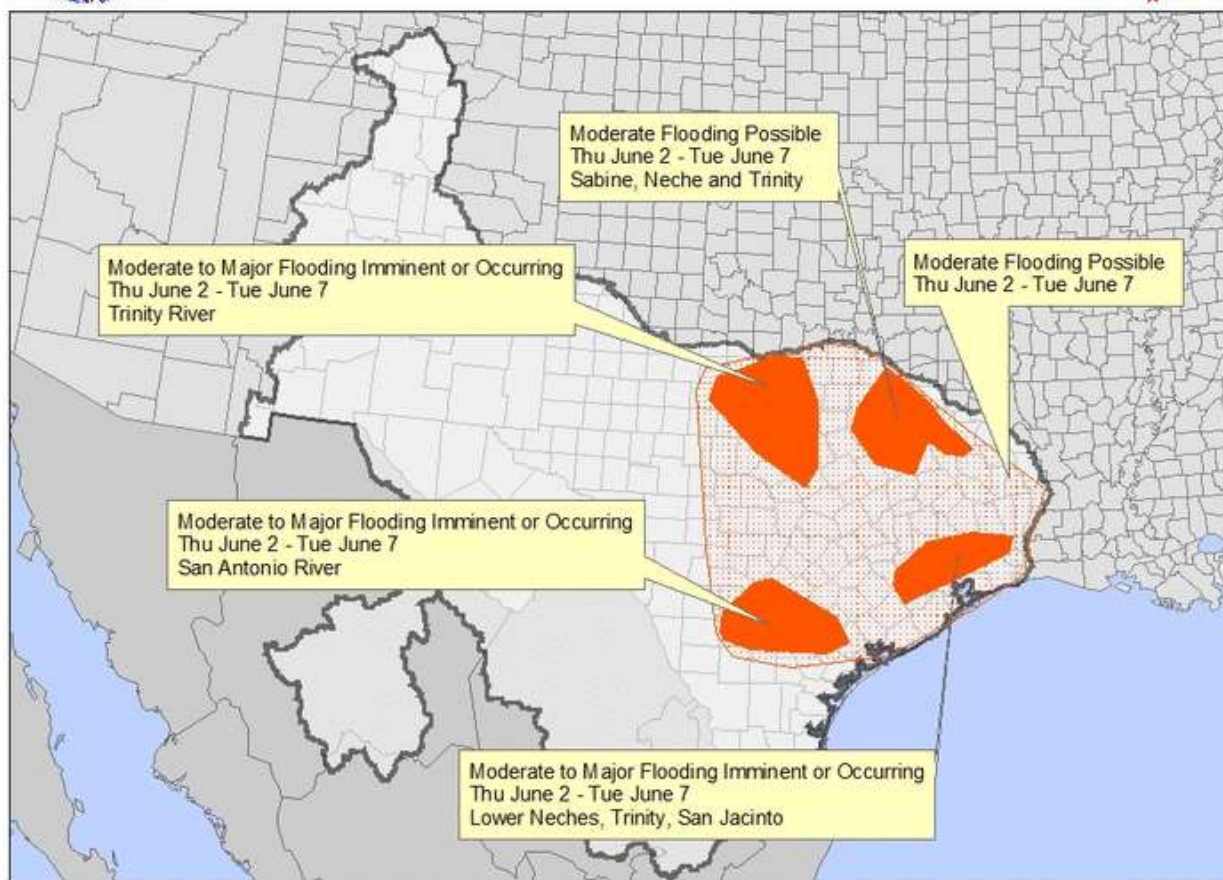

1. Protect life and property.
2. Support rapid & effective response.
3. Collect and disseminate accurate incident information to improve decision-making.
4. Accurately track incident costs associated with assigned resources for cost recovery.

Significant River Flood Outlook

Valid: 6/3/2016 - 6/8/2016

West Gulf River Forecast Center 6/3/2016 11:58:14 AM

**SIGNIFICANT RIVER
FLOODING POSSIBLE.**

**SIGNIFICANT RIVER
FLOODING LIKELY.**

**SIGNIFICANT RIVER
FLOODING OCCURRING
OR IS IMMINENT.**

Significant River Flooding Impacts include:
Roads adversely affected. Residential,
commercial, industrial, and/or agricultural
areas affected. May require evacuation of people.

NOTE: Flash Flooding or Minor River Flooding
will NOT be included in this outlook.

River Basins:

San Jacinto Basin: Major Flooding – Widespread flooding continues across the San Jacinto river basin. Major flooding is occurring on the West Fork San Jacinto River (HMMT2). Moderate flooding is also occurring on the San Jacinto River at Sheldon (SHLT2). River stages at both of these locations have crested and are starting to fall.

Trinity Basin: Major Flooding – Heavy rainfall has recently occurred over parts of the upper Trinity River. The headwater area for the West Fork Trinity River at Jacksboro (JAKT2) is currently rising and is forecast to crest into moderate flood levels. This water will be passed through local water supply reservoirs, keeping downstream river levels at higher than normal flow levels. Heavy rainfall also occurred over the middle Trinity River. Again, water is being passed through various water supply reservoirs keeping downstream river levels higher than normal. The Trinity River at Trinidad (TDDT2) and Long Lake (LOLT2) is currently rising and is forecast to crest at moderate flood levels. Chambers creek, a tributary to the Trinity, is also rising and is forecast to crest at moderate levels at Rice (RCET2). Major flooding is still occurring on the lower Trinity River at Liberty (LBYT2). The river at this location has crested and is falling. However, heavy rainfall is forecast to occur over southeast Texas over the next several days which could prolong flooding on the lower Trinity River basin.

Brazos Basin: Major Flooding – Moderate to major flood conditions are occurring in the Brazos River basin on both the upper and lower reaches. The Flood Wave on the lower end of the Brazos main stem continues to slowly pass through Richmond (RMOT2), which is on the backside of a long broad crest from routed flow from San Felipe (BAWT2). Downstream, near Rosharon (ROST2), the river is nearing crest around 52.5ft, about 1 foot above major flood stage. And further downstream, West Columbia (WCBT2) may reach flood stage over the weekend. Looking back upstream, continued moderate rainfall within the upper Brazos River has generated a series of significant flood waves above Possum Kingdom Lake, above Lake Granbury, and above Lake Whitney. Moderate flooding is expected again near Dennis (DNNT2) and major flooding occurred overnight Glen Rose (GLRT2). Many basin water supply reservoirs are full and passing inflows, while flood control projects continue to hold water within flood storage. Soil moisture across most of the entire basin is abnormally wet, so additional rainfall will generate proficient runoff to continue and possibly exacerbate flood conditions.

Guadalupe Basin: Moderate Flooding – Several sites remain on the rise from rainfall yesterday, mostly on the lower end of the river system. The San Marcos is having a slight rise with no real impacts, but Sandies Creek will reach close to moderate flood category. The main stem Guadalupe at Victoria and at Bloomington will reach moderate flooding over the next few days and stay elevated for some time.

Nueces Basin: Moderate Flooding – Heavy rain over the Leona River near Uvalde is heading down toward the Frio River which will push Derby higher into moderate flood category. All other sites will be fairly well behaved as water routes its way downstream.

Neches Basin: Moderate Flooding – Widespread minor to moderate flooding continues in the Neches river basin.

San Antonio Basin: Moderate Flooding – High flows are occurring in several parts of the basin due to rain events over the past few days. Flooding will continue into the upcoming weekend.

Region 1 (Includes DDCs 4 Hurst, 4 Garland, 5 Mt. Pleasant, 6 Tyler, and 22 Sherman)

DDC 4A-Hurst (Includes Denton, Erath, Hood, Johnson, Palo Pinto, Parker, Somervell, Tarrant and Wise Counties) – DDC 4A-Hurst is at Level III (Increased Readiness). Texas Department of Public Safety (DPS) Texas Division of Emergency Management (TDEM) District Coordinator (DC) 11/23 Waco is currently working at the Hood County Emergency Operations Center (EOC). Erath, Hood and Parker County EOCs are active. Multiple roads are closed in Erath, Somervell, Palo Pinto, Parker, Johnson, and Hood Counties. Erath, Hood, Somervell, Palo Pinto and Parker Counties have submitted Disaster Declarations. The DDC is developing a demobilization plan.

Hood County: City of Granbury has submitted a Disaster Declaration.

Hood County reported that an apartment complex's foundation was washing out and residents were asked to evacuate. A total of 16 units at the apartment complex in the City of Granbury that was being evaluated by TxDOT Engineers has been deemed untenable and destroyed.

TX-TF2 and TMD assisted with 93 structures assessed and 29 evacuations. Thursday seven emergency rescues and 50 reconnaissance missions conducted with TX-TF1 and TX-TF2. A Mandatory Evacuation Order for a portion of the Rolling Hills Shore Edition in northern Hood County has been issued due to the opening of a third gate at Possum Kingdom Lake.

Johnson County: Reported 75 road closures; four rescues; and 15 homes impacted by floodwaters.

Palo Pinto County: Still plans to have the Red Bull diving event on Friday and Saturday; working to restore water to City of Strawn.

Parker County: Parker County submitted a Disaster Declaration on 05/31/16. Water rescues were conducted Thursday evening.

Region 2 (Includes DDCs 13, 14, 15, 16 Houston, 16 Texas City, 16 Conroe and DDC Pierce)

DDC 13 – Bryan (Includes Brazos, Burleson, Grimes, Leon, Madison, Robertson, and Washington Counties) DDC Bryan remains activated at Level III (Increased Readiness Conditions). Multiple road closures throughout the district.

Thursday evening Bryan TxDOT coordinated with their maintenance offices to formulate three crews that will work Friday, Saturday, and Sunday in Washington County to address specific needs. Bryan TxDOT District Maintenance will work on preparing details for DDC Bryan EMCs and addressing issues. TxDOT contractors will work on repairs on FM 2621, BS 36, and FM 1155 in Washington County and on FM 1361 in Burleson County Saturday.

Burleson County: Submitted a Disaster Declaration extension.

Grimes County: Submitted a Disaster Summary Outline.

DDC 14 – Lufkin (Includes: Shelby, Nacogdoches, Houston, Angelina, San Augustine, Sabine, Trinity, San Jacinto, Polk, Tyler, Jasper and Newton Counties)

Tyler County: Due to continued significant rainfall in the Neches Basin above Town Bluff and sustained high rates of inflow occurring, the flood gates at Town Bluff Dam have been raised to 60 feet as of 4:00 PM on 06/02/16. An estimated release of 31,000 cfs, with an expected continued increase of one foot every 10 minutes until the rise in lake elevation ceases. The U.S. Army Corps of Engineers will continue to closely monitor the situation and provide updates as they become available.

San Jacinto County: Submitted a Disaster Declaration (DD) extension.

Trinity County: Submitted a DD and Letter to the Governor.

DDC 15 – Beaumont (Includes Hardin, Jefferson and Orange Counties)

Hardin County: Hardin County submitted a Disaster Declaration. Currently experiencing flooding due to severe weather and rising levels in the Neches River, Pine Island Bayou and Village Creek. Many local roads have standing water and several Farm-to-Market (FM) roads have been closed due to rising waters. FM 770 from SH 105 to Liberty County line and FM 1003 from FM 1293 to FM 770 are closed due to high water. Several other roadways across the county also have water in low lying areas.

DDC 16 – Houston (Includes Chambers and Harris Counties)

Harris County: The Harris County Office of Homeland Security & Emergency Management (HCOHSEM): As of 0800 on 06/02/16, the Harris County EOC has moved to Level III Increased Readiness and continues to monitor rainfall in Southeast Texas.

City of Houston submitted a DSO.

DDC 16 – Pierce (Includes: Austin, Colorado, Fort Bend, Matagorda and Wharton Counties) – Fort Bend EOC at Level I; DDC 16 Pierce increased its readiness level to Level I and is located at 5505 Avenue N, Rosenberg 77471. EOCs in the cities of Fulshear, Missouri City, Richmond, Rosenberg, Simonton, Sugarland, and Weston Lakes are at Level I. The mandatory evacuation order issued by the city of Wharton is for a small portion of city that is prone to flooding. Two shelters open with population of 58. TX-TF1 is in Fort Bend County with five swift water rescue squads, one Type 4 US&R team and one water rescue manager; LNO assigned to DDC 16 at Fort Bend EOC. On Thursday, 187 people and 24 animals were evacuated. Two shelters are open. Preliminary damage assessments are 78 homes with major damage in Richmond, 62 homes with major damage in Rosenberg, 2 business with major damage and 25 homes with major damage in Thompsons.

Missouri City filed a Disaster Declaration, and the City of Richmond is working on protecting infrastructure. Voluntary evacuation for parts of the city. ARC has shelters with population of 10. ARC ordered cleanup kits for the City of Simonton.

Fort Bend County: The most recent forecast for the City of Richmond appears to show the Brazos starting to recede from a peak elevation of 54.81'. The most recent observation is 54.57'. The forecast shows the River falling below major flood level on Tuesday, but upcoming forecasts should be closely monitored for significant changes due to forecast rainfall. The most recent forecast for Rosharon shows a peak of 52.9' on Saturday with the River remaining above major flood level through the forecast period.

Base Camp at Fort Bend County fairgrounds is established and fully operational.

Wharton County: The City of Wharton and Wharton County submitted a Disaster Declaration. Wharton County submitted a Disaster Summary Outline on 05/30/16.

DDC 16 – Texas City (Includes: Brazoria and Galveston Counties) – DDC 16 – Texas City is co-located at the Brazoria County EOC. City of Brazoria, Angleton, West Columbia, and Brazos County have submitted Disaster Declarations. Nineteen evacuations were conducted Thursday night. Angleton Middle School is open as a shelter. Texas Military Department is working on getting flotation devices for their personnel. The DPS Communications Trailer was set up Thursday night; IMTs and Brazoria County officials are working out of the trailer. FM 1462 is closed. Three prisons have been evacuated and an additional prison will begin evacuating on Friday due to wastewater facility possibly going under water. A DPS Command Trailer arrived Friday.

Brazoria County: The County EOC is at Level I.

The Brazoria County Judge issued a mandatory evacuation order for residents east of the Brazos River off of Farm-to-Market (FM) 1462 and west of Oyster Creek off of FM 1462. Residents North and South of FM 1462 are in the evacuation zone.

City of Holiday Lakes: Requested mandatory evacuations and began evacuating Thursday night.

Region 3 (Includes DDCs 19, 20, 21, 24)

DDC 20 Corpus Christi (Includes: Bee, Brooks, Duval, Jim Wells, Kenedy, Kleberg, Live Oak, Refugio and San Patricio Counties) – Shelters are open within DDC 20 Corpus Christi. Damage assessments are underway; anticipating submission of DSOs by Monday. Minor electrical outages reported.

DDC 21 – Weslaco (Includes Cameron, Hidalgo and Willacy Counties) – Conducting residential and commercial damage assessments in the City of Palmview. American Electric and Power is repairing or replacing damaged electrical poles. As of 8AM Friday morning, 242 customers were without power. FM 494 remains closed until electrical lines are repaired. Mission has one general population shelter on standby. Rio Grande Food Bank is open and providing meals. The DDC returned to Level IV – Normal Conditions at 5:00 PM on 06/03/16.

Hidalgo County: Hidalgo County and city of Mission Public Works crews are performing debris removal.

Region 5 (Includes DDCs 1, 2, 3 and 7)

DDC 3 – Wichita Falls (Includes: Archer, Baylor, Clay, Cottle, Foard, Hardeman, Jack, Wichita, Wilbarger and Young Counties)

Clay County: has experienced significant rainfall over night. Reports of 6-8 inches of rain have fallen in a few hours. Clay County Memorial Hospital took in water a couple of inches on the first floor.

Texas Department of Transportation is now reporting all paved roadways that were previously closed now open to traffic. Clay County has five homes flooded so far. Montague County reported conducting water rescues in the City of Bowie. FM 1806 and FM 1816 are impacted by water on the roadways.

Young and Jack Counties: Young County and Jack County have a few road closures impacting travel in DDC-3 Wichita Falls. In Young County State Highway 16 is closed at Loving (Intersection Hwy 16 & Hwy 114) up to the Hwy 281 intersection South of Windthorst. FM 1769 is also closed in Young County. This is a road that connects with the portion of Hwy 16 that is closed.

DDC 7 - Abilene (Includes Brown, Callahan, Coleman, Comanche, Eastland, Fisher, Haskell, Knox, Kent, Jones, Mitchell, Nolan, Runnels, Scurry, Shackelford, Stephens, Stonewall, Taylor and Throckmorton Counties):

DDC 7 Abilene is now at Level III (Increased Readiness); may move to Level II (Increased Readiness Conditions) late Friday. Texas State Guard personnel are working in the EOC supporting administrative needs.

In DDC 7 Abilene, additional rainfall Thursday evening and through Thursday night has kept many roadways underwater and creeks and rivers swollen. The Cisco Lake area in Eastland County experienced major flooding Thursday evening. Residents were evacuated from the north shore of the lake and a tremendous amount of water has gone over the spillway in the past 24 hours, resulting in the complete washout of State Highway (SH) 6. Due to the highway damage, local emergency responders have worked with neighboring jurisdictions to devise a response plan into the remote areas north of the washout. The City of Cisco water treatment plant was inundated by water and officials are working to determine the extent of damage and their needs. A shelter was opened for a short period of time in Cisco; the single occupant is now being served by a local church. There are currently no open shelters reported in Disaster District 7. Flooding persists in Brown, Callahan, Coleman, Comanche, Eastland, Fisher, Runnels, Shackelford, Stephens, and Taylor Counties. Additional counties are affected but are not reporting major impacts. State agency and volunteer partners have been extremely active in providing support for the residents and local governments. Evacuations underway in North Shores Lake. Several roads are underwater, and parts of US 180 and US 183 are flooded. The water plant serving Breckenridge is expected to be out for five days; working on solutions to provide safe water for impacted residents. City of Coleman EOC is activated. Some evacuations are in place in Breckenridge along the Gunsolus Creek. A STAR request was

submitted for TMD personnel support. Volunteer agencies such as Salvation Army and American Red Cross have been assisting residents with food, water, and other forms of assistance.

Brown County: National Weather Service and River Prediction Center anticipate that Pecan Bayou will reach up to 16 feet by early Saturday morning resulting in additional flooding to City of Brownwood. This will be almost one foot higher than the previous flooding incurred by this storm system.

Comanche County: Proctor Lake: Current Nation Weather Service weather radar indicates a stalled weather pattern in the vicinity of Proctor Lake Dam. Surcharge releases from Proctor Lake are expected to occur over the weekend, and could begin in the early morning hours of Saturday, 06/04/16. These releases are expected, and any additional rainfall could require surcharge releases to begin by midnight tonight. Surcharge releases may be expected to cause moderate to major out of bank flows along the Leon River downstream of Proctor Dam. Low lying areas will be flooded. The US Army Corps of Engineers will continue to closely monitor the situation and will provide updates as available.

Eastland County: City of Cisco submitted a Disaster Declaration on 05/31/16. Multiple roads closed. Lake Cisco is flooding and evacuations are under way for approximately 70 residents along the north shore of Lake Cisco. High-profile vehicles are assisting from TMD and mutual-aid agencies. TPWD boats were deployed to assist, as well as a boat crew from Texas Task Force 1. City of Cisco has implemented their EAP with a watch condition due to water going over the spillway of an old concrete dam. Local officials are concerned with seepage. There is limited downstream hazard. City of Cisco has access to portable bathrooms and a 1000-gallon tank of potable water to be used with the developing water outage in the city. They also have received 4 pallets of water as well as a semi-truck load of water being provided by Walmart. A point of distribution is being set up at the Myrtle Wilks Community Center. DDC-7 Abilene is coordinating the transfer of drinking water from city of Breckenridge to city of Cisco.

State agency partners, engineers, and local officials planned a conference call for Friday afternoon to discuss options for restoration of water treatment operations in Cisco.

Stephens County: The Gonsulus (Gonzales) Creek appears to have crested below the elevation of highway bridges. Big Sandy Creek has been on the rise but does not appear to be creating additional issues. The shelters in Breckenridge are closed due to a lack of population.

Taylor County: City of Tuscola sewer pumps are struggling to keep up with the influx of water. Citizens have been asked to conserve water waste. Lake Abilene lacks 2 ½' to reach spillway.

Region 6 (Includes DDCs 11,12,17,18, 23)

DDC 11/23 – Waco (Includes: Bell, Bosque, Coryell, Falls, Freestone, Hamilton, Hill, Lampasas, Limestone, McLennan, Milam, Mills and San Saba Counties)

Coryell County: Fort Hood Officials have confirmed that all the soldiers that were involved in the military vehicle low-water crossing incident have been accounted for.

Falls County: Submitted a Disaster Declaration.

DDC 12 – Austin

Bastrop County: Bastrop County OEM continues to operate their EOC at Level 1. They will continue to monitor the weather forecasts, which current models show a Flash Flooding Threat through Saturday. Lower Colorado River levels at Bastrop 21' at 25,000 cfs and Smithville 17' at 27,000 cfs. Bastrop County continues to monitor for road and bridge damage/closures and openings and answer hotline calls for damages.

Bastrop County requested assistance TxDOT Engineering for Geo-Technical Services to assist the Bastrop County Engineer. Two county roads are disintegrating due to erosion from the rising river.

Continued updates will include numerous additional Private Property and Business damage and/or losses: 25 businesses; 268 homes; and 24 mobile homes.

Bastrop County Long Term Recovery Team is currently assisting a High Risk Pregnancy family is being housed at a local motel. Volunteers continue staffing hot line calls for home and business damages. Information has been provided to the County and three Cities Residents regarding Hot Line phone number. United Methodists volunteers out helping with the clean-up Texas Baptist Men and United Methodists volunteers will be here over the weekend helping with clean-up.

The American Red Cross sheltered 20 people at Church of Christ, 287 FM 20, Bastrop; Sunday, June 4, 2016 will be the last day at the Church. Alternative sites are being researched if needed after Sunday. Meals and Comfort packs are being provided.

Hays County: Additional periods of shower and thunderstorm activity are expected across the local area through Saturday morning. This activity will be widespread at times, and less numerous at times. Regardless as to the area coverage of the activity at any given moment, locally heavy rainfall is likely with any thunderstorm activity during this period, and the activity will also tend to move slowly which could have a significant impact on given location(s) (Buda, Driftwood, Dripping Springs, Kyle, San Marcos, Uhland, Wimberley) from time to time.

Grounds are obviously saturated across the area and many creeks and streams are running above normal height from recent heavy rains. Any additional periods of locally heavy rainfall are likely to produce rapid run-off which will result in flooding of low lying and poor drainage areas (especially low water crossings and adjacent lowland areas) at times during the Watch period. In addition to the threat of flooding in low lying and poor drainage areas, there is also potential for flooding of creeks, small streams and possibly even some river flooding across at least some parts of the local region as further runoff continues from the heavy rains of this week.

Average storm total rainfall of 4-5 inches is likely across most of the area (since beginning on Tuesday), with localized amounts of six inches or more possible in some spots.

Archer Western completed the widening of the Plum Creek Dam #6 canal around 11:00 PM 06/01/2016. Archer Western staff is currently at the dam monitoring the situation on a 24 hour watch. As of 6:55 AM the reservoir dropped about a 1/8 of an inch and holding steady and rain gage at location received .75" of rain.

Lee County: The Immanuel Lutheran Church continues to operate as a shelter for 23 people.

Travis County: LCRA has three floodgates open at Mansfield Dam with similar operations at Tom Miller Dam. Gates are also open at Longhorn Dam. The waterways remain closed.

DDC 17 – Victoria (Includes: Gonzales, DeWitt, Lavaca, Goliad, Jackson, Victoria and Calhoun Counties) Gonzales County: Water rescue on FM 77 near Sandies Creek. Multiple road closures due to flooding.

Gonzales County: Cal-Main Wastewater Treatment Plant retention structure is in imminent threat of overflowing. Cal-Main, in coordination with TCEQ and TPW Biology unit is discharging 1M gallons per day into El Creek. Elm Creek will flow to a confluence with Sandy Fork Creek and ultimately flow into the Guadalupe River towards Gonzales. A discharge from the treatment plant has resulted in a fish kill downstream. The plant is located in Waelder.

RESPONDING STATE AGENCIES/ORGANIZATIONS REPORTS

Texas Parks and Wildlife Department (TPWD): TPWD Game Wardens statewide remain on standby with equipment for severe weather response.

In the City of Brownwood six Game Wardens with their 4x4 trucks and three flat bottom boats are on standby in the event they are needed for flooding should waters crest over the dam.

Eight Game Wardens with four boats standing by in Brazoria County for Brazos River flooding.

Forty Game Warden Strike Team with 20 Boats have been deployed to the Richmond and Rosenberg area for possible levee over-topping and flooding. The Strike Team is staged at the fairgrounds in Rosenberg.

Six Game Wardens and two boats equipped with side scan sonar are assisted in the recovery effort on Fort Hood. The TPWD helicopter is on site.

Assets include nine SAR boat/crews which are available and positioned in nine locations. One Fixed Wing Cessna and A-Star helicopter are available (now deployed) from the State Pooling Board in Austin.

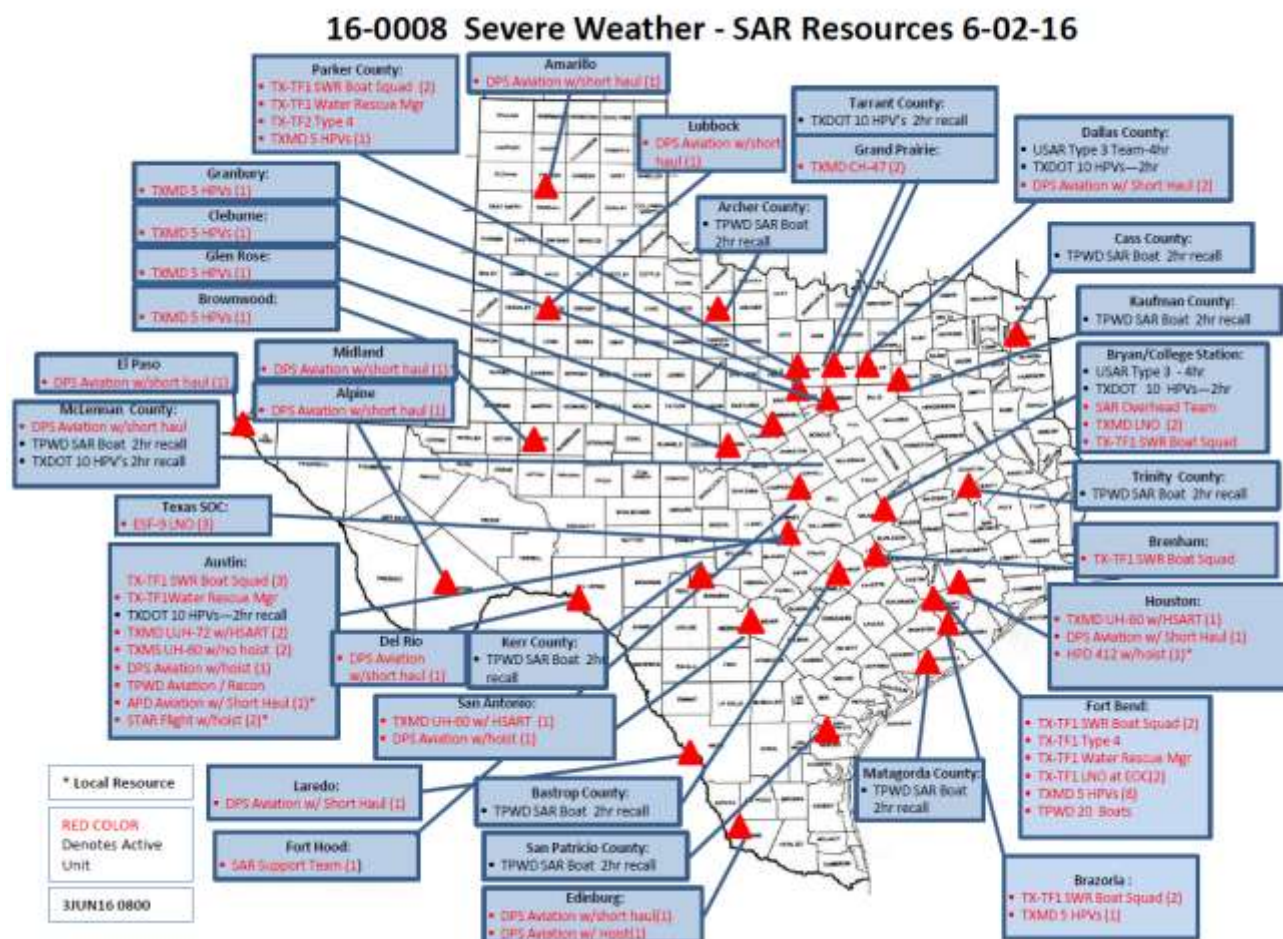

The Cessna is available for over flight and passenger transport and the A-Star is available for search, surveillance, passenger transport and SAR-Hoist equipped.

Texas A&M Engineering Extension Service (TEEX) Texas Task Force 1 (TX-TF1): Texas Task Force 1 has staged water rescue resources in Fort Bend, Brazoria, Travis, Brazos, Hood, Washington and Parker counties for response to requests for assistance due to flooding as a result of recent heavy rains in Southeast Texas. TX-TF1 is also providing resources to support on-going search efforts on Fort Hood.

Water Squads remain ready to respond to jurisdictional requests. Water Squads are positioned in areas known to experience flooding or for rapid response to areas where flooding may occur.

Water squads have been responding to flooded areas to assist with rescues and evacuations of residents.

TX-TF1 has performed: 30 assists, 32 rescues, 1,014 evacuations, 15 victim recoveries, contacted 525 citizens sheltering in place and rescued and relocated numerous companion pets and domestic livestock.

Texas Department of Transportation (TxDOT): During the last 24-hr operational period overall conditions have seen marginal improvements. As of 6:00 AM Friday morning DriveTexas.org indicated a total of 169 roadways that are either flooded or closed due to flooding or wash-out. Districts across the state to work on repairs to damaged roads. They are also in the process of preparing and executing Emergency Maintenance Contracts for repairs that are beyond their forces. Crews continue to monitor, assess and make repairs as conditions change. Bridge inspectors are assessing bridge structures as necessary. At this time, each district has managed the incident with their resources. Attention is being split between the river flood levels in the southeast part of the state, along with the heavy rain that is affecting roadways in the northern and southeastern part of the state. We will continue to monitor and respond to these conditions as they change.

Texas Commission on Environmental Quality (TCEQ): Texas Commission on Environmental Quality (TCEQ) will monitor the operational status of the public drinking water and waste water facilities in the impacted flood areas and ensure that all reporting requirements are completed and provide technical assistance and guidance, as requested. Currently, TCEQ has been notified of 23 public drinking water systems that have issued Boil Water Notices in the flood impacted areas.

The City of Cisco's public drinking water treatment plant was completely inundated due to flood waters. The City has issued a boil water notice and appears to have about one to two days of stored water. TCEQ's Office of Water is discussing with the City other options for potable drinking water.

Also, several sanitary sewer overflows (SSO) were reported. TCEQ Region staff is also monitoring other discharges and will assess and respond as needed to any hazardous material incidents that may occur due to the flooding event. TCEQ continues to monitor several Dams impacted by flooding.

Texas Department of Public Safety (DPS): Current Summary: Currently assisting with road closures across the state as necessary. DPS Aviation has four rotary-wing aircraft available and three aircrews on "standby" status for assistance calls. Those aircrews are staged in Austin, Houston and San Antonio.

Texas Division of Emergency Management (TDEM): TDEM State and District Coordinators are providing resource coordination and processing requests for assistance by impacted jurisdictions.

Texas Department of State Health Services (DSHS): Currently represented at the SOC. All Health Service Region offices are in regular contact with local emergency managers, District Coordinators, local health departments, and regional advisory councils. All STARs for tetanus vaccines are now being processed and fulfilled at the state level. Catastrophic Medical Operations Center (CMOC) personnel are providing liaison support DDC 16B and 16D, coordinating medical operations. An Ambulance Strike Team and Ambulance Strike Team Leader continue to support Brazoria County EOC/DDC.

Texas Department Health and Human Services Commission (HHSC): Employment Service Program (ESP) is in support of Health and Human Service Branch Director. HHSC is on standby to support water and ice operations. Executive Leadership has been briefed on disaster event. Received 743 calls for 2-1-1 in reference to disaster activities. HHSC is providing 24 hour coverage to SOC. HHSC has three staff members on standby for the SOC.

Texas Military Department (TMD): TMD has activated a total of 263 personnel, 67 vehicles and eight aircraft in support of Abilene, Lubbock, Rosenberg, Granbury, Weatherford, Cleburne, Glen Rose, Brownwood, Angleton, College Station, Grand Prairie, and Austin. Eight air assets assigned; helicopters in Austin, San Antonio, Ellington Airfield, and Grand Prairie. Currently supporting TTF1/2 and DDCs 4-Hurst, 7-Abilene, 16B-Texas City, and 16D-Pierce.

Texas A&M Forest Service (TFS): Continues to staff Emergency Services Branch at the SOC filling the roles of Emergency Services Branch Director and Deputy Emergency Services Branch Director and ESF4; as well as the Critical Information Systems filling the role of two GIS

Specialists to assist with map development. TFS has sent The Lone Star State IMT (38) to Fort Bend County in anticipation of additional flooding. Five (two TFS and three Non-TFS IMT members) are assisting with operations in DDC 16 Pierce. TFS has sent an IMT Planning element (three non TFS IMT members and two TFS personnel) to Texas City to assist with flooding. The TFS Task Force in Merkel (nine personnel + equipment) is assigned to Amarillo DDC to in anticipation of increased flooding.

Texas Public Utility Commission (PUC): Most of the restoration efforts across the state are complete. Power outages reported by the Utilities as of 2:30 PM are relatively small in number. Customers without power as of 2:30 PM 06/03/16 are as follows:

AEP reports approximately 560 customers without power. Approximately half of these outages are in Hidalgo County.

CenterPoint reports that approximately 1,550 customers, mainly in Harris County and Fort Bend County near Rosenberg are without power. In addition, CenterPoint plans to respond to the city of Richmond's request to disconnect service to several premises that have been flooded to prevent unsafe conditions. CenterPoint expects that the city of Rosenberg may make a similar request.

The PUC continues to monitor the situation closely.

Texas Department of Family and Protective Services (DFPS): DFPS Regional Incident Management Teams remain on "enhanced alert" status. Welfare checks for clients, facilities and staff have been conducted and are on-going as the severe weather and heavy rain circumstances fluctuate and move around the state. DFPS R6 is very closely monitoring the situation along the Brazos River, and is in frequent contact with clients near the river. One foster family reports evacuation and damage to property from flood waters. Child Care Licensing and Residential Child Care Licensing report 19 clients affected by flood waters, with damage ranging from very minor to catastrophic. Several more report closing because of water pressure or electrical outages. DFPS continues to receive calls for assistance for Adult Protective Services clients related to the current flooding incident.

The Salvation Army (TSA): The Salvation Army Texas Division has increased its resources in the affected areas to support response efforts across Texas due to the recent severe weather.

Bell County – At the request of Bell County Emergency Management, The Salvation Army of Waco is responding with their mobile feeding unit to Owl Creek Park on Lake Belton to provide food and hydration to search and rescue crews. All Salvation Army units across the division have been briefed of the current situation and have been placed on increased readiness. Salvation Army CISM personnel are ready to respond if needed. Salvation Army leadership is closely coordinating with local and state emergency management as well as our other partner agencies.

Brazoria County – The Salvation Army of Freeport, in preparation for the forecasted flooding, has a team on stand-by to provide food, hydration and emotional and spiritual care. Two Mobile feeding units and one Rapid Response Unit have been deployed to the area to support feeding and bulk distribution operations.

In partnership with Mercy Chefs and county emergency management, The Salvation Army has deployed a field kitchen to the Angleton ISD Shelter to support feeding operations in Brazoria County. Truckloads of Water, household food boxes, cleaning and hygiene products are being

pushed into the area for distribution. Anticipated response areas are Holiday Lakes, W. Columbia and Angleton.

Brazos County – The Salvation Army of Bryan/College Station has stood down feeding operations and is on standby to support the division. Communications and coordination with City Emergency Management is still on-going.

Brown County – The Salvation Army of Brownwood provided feeding support to the Brownwood EOC/Fire Station. The Brownwood mobile feeding unit and volunteer team have been activated to support feeding operations in the affected area serving first responders and residents.

Fort Bend County – The Salvation Army Houston Area Command is establishing an Incident Command Team at Houston International Corps to respond to Fort Bend County by providing food, hydration and emotional and spiritual care. Five mobile feeding units and One Rapid Response unit with crews have been deployed to the Houston Area Command to support feeding and bulk distribution efforts for the county. Anticipated response areas Pecan Grove sub-division, Sienna Plantation sub-division and County Social Services in Rosenberg.

Hidalgo County – The Salvation Army of McAllen has deployed their mobile feeding unit to support first responders and affected residents with food and hydration after straight line winds affected the county. Hood County The Salvation Army Granbury Service Unit has 150 clean up kits ready for distribution to those affected by the recent flooding.

Hood County – The Salvation Army Granbury Service Unit has 150 clean up kits ready for distribution to those affected by the recent flooding.

McLennan County – At the request of the American Red Cross, The Salvation Army Shelter has been put on standby for anticipated evacuations.

Stephens County – The Salvation Army Texas Division delivered water, at the request of DDC Abilene, to the City of Breckenridge due to their water plant not functioning.

Washington County – Cots, blankets, water and hygiene products have been delivered to the town of Brenham in support of shelter operations. Additional emergency supplies are in transit and direct emergency assistance will commence later this week for 200-300 affected residents.

Total Service to date 1,732 meals; 6,471 drinks; 7,830 snacks; 65 clean up kits; 12 tarps; and 367 volunteer hours.

The American Red Cross (ARC): The Central and Southwest Region and Texas Gulf Coast Region of the American Red Cross has been active since the beginning of the May Sever Weather outbreak providing disaster relief to residents affected by devastating flooding and tornado damage. With additional rainfall yesterday 06/02/16, the American Red Cross is now operating three districts for this relief operation in 27 Counties: District 1 (Austin); District 2 (Houston); and District 3 (Fort Worth): Austin, Bandera, Bastrop, Brazoria, Brazos, Burleson, Eastland, Fayette, Fort Bend, Grimes, Harris, Hays, Hood, Kendall, Kleberg, Lee, Liberty, Matagorda, Montgomery, Parker, San Jacinto, Stephens, Travis, Tyler, Waller, Washington, and Wharton.

Fixed feeding sites at all shelters. The American Red Cross is partnering with the Southern Baptist Convention and Texas Baptist Men's to operate two kitchens in Travis and Montgomery Counties. Each kitchen has the capacity to serve 5,000 meals per day.

A third kitchen to serve the public and 200 first responders in Rosenberg which has a capacity to serve 6,000 meals per day at the First Baptist Church 1117 First Street, Rosenberg.

Bulk distribution provided through mobile routes in Brazos, Montgomery, San Jacinto, Waller, Ft. Bend, Austin, Wharton, and Harris. Distributed the following items: 934 bulk items; 132 clean up kits; and 96 comfort kits (toiletries).

To help those impacted on their road to recovery, Red Cross caseworkers are advocating for disaster survivors to help develop personal recovery plans, identify housing resources, and share information on community resources and faith based assistance. To date 18 cases and 58 customers have been served.

This operation is exploring new app technology called Map to Track to capture our damage assessment info. Teams are in the field in the following 13 counties: District 1 (Austin) Lee, Travis and Washington Counties; District 2 (Houston) Montgomery, San Jacinto and Waller Counties; and District 3 (Fort Worth) Brown, Eastland, Erath, Hood, Johnson, Parker and Somerville Counties.

Texas Animal Health Commission (TAHC): Continue to work livestock rescue and sheltering. Texas A&M VET arrived on Thursday and has conducted exams for hundreds of animals. Horses viewed on the news have been triaged and transported to shelters. Texas Department of Agriculture is managing a hotline and state of Texas AG relief fund.

Texas Department of Aging and Disability Services (DADS): Independence Hall (ALF) in the city of Bowie experienced some water intrusion into their facility. They have now placed sand bags and plastic to prevent any further water intrusion. The mayor, the city manager, and DADS staff plan to visit the facility to check on their status. Fellows Block (ICF) in Missouri City has evacuated six residents to a Super 8 hotel. Creekside Village (NH) in the city of Clute is preparing to evacuate 78 residents to a sister facility.

Fort Bend County has inquired about the ability of Richmond State Supported Living Center to shelter evacuees from the county with an intellectual disability and who are medically fragile. That inquiry was forwarded to the Assistant Commissioner of DADS SSLC. As of now, Richmond SSLC has not received a formal request to shelter evacuees.

Multiple long term care facilities have reported minor water intrusion at their facilities. All have been able to remedy and the water has not impacted patient care.

DADS will continue to monitor the status of impacted facilities in the impacted areas.

Texas Department of Assistive and Rehabilitative Services (DARS): DARS continues to support SOC response operations in impacted areas for potential support to people with disabilities and functions needs support services (FNSS) resources.

Texas A&M AgriLife Extension Service (TAES): Texas A&M AgriLife Extension agents, specialists and mid-managers have been engaged in the following actions in the past 24 hours to

address flooding, strait line wind and tornado issues. Assisting local ranchers and Texas Animal Health Commission to rescue and evacuate livestock. Assisting County EOC as PIO and manning emergency telephone hotlines and phone banks. Assisting County EMC to activate companion & livestock shelters and care for rescued and evacuated animals. Providing "After A Disaster" suite of educational pubs to impacted citizens. AgriLife Communications continues to support TDEM with public information with their rural and urban mass media network connectivity. Participation on daily SOC awareness, preparedness, response and recovery Conference calls/WebEx. Participation on daily TAHC led Agriculture Industry partners and agencies conference calls. Extension mid-managers remain in contact and on standby as agency liaison to their respective Disaster District Committees. Assist USDA FSA to assess and report agricultural elated damages as a member County Emergency Board (CEB).

Railroad Commission of Texas (RRC): Austin Headquarters and nine district offices are monitoring the flood event and responding to reports received within RRC jurisdiction.

FINAL COMMENTS: The SOC increased its level of readiness to Level III (Increased Readiness) at 9:30 AM on Friday, and is conducting weather conference calls with local, state, and federal partners and the Southern Region Headquarters of the National Weather Service. The Texas Division of Emergency Management (TDEM) continues to respond as needed and monitor the situation. Additional situation reports will be issued as needed.

The four levels of SOC activation are:

- Level I (Emergency Conditions)
- Level II (Escalated Response Conditions)
- Level III (Increased Readiness Conditions)
- Level IV (Normal Conditions)

This Situation Report can be found on the TDEM webpage at: www.txdps.state.tx.us/dem.
